

## KS5 BC

### Box Acoustic Lining

Shush...! Accomplish noise level reduction.

K-con now provide an acoustic lining to reduce the noise levels of the Mitsubishi Electric BC Box branch controllers on VRF installations to ensure specific acoustic standards.

#### Key Features:

- Jackets are available in Silver finish
- Typical noise reduction of up to 5dBA on standard CMB-M controllers
- Factory fitted to ensure correct fitting and best acoustic results

Site fitting is available however performance cannot be guaranteed, this is dependant upon access to the BC Box controller.

Typical sound power level reduction using KS5 acoustic lining in typical installation conditions.

CMB-P BC Controller	Typical sound power reduction
Standard model	As per data book
Using K-con KS5 acoustic lining	*Up to 5dBA reduction

\*BSRIA tested to BS EN ISO 3746:2010. Tested using CMB-M1016V-JAI and PURY-EP500YLM

Mitsubishi Electric BC Controller Model No.	K-con Model Selection	Length (mm)	Height (mm)	Depth (mm)	Weight (Kg) inc BC Box	Weight (Kg) inc BC Box & Port Isolation	Code
CMB-M104V-JI BC CONTROLLER R410A	KS5-CMBM104V-JI		280	500	34.35	38.45	10071048
